1. Overview & Target Groups

The Government of India and various state welfare departments sponsor minority scholarship programs. These target notified communities (Muslim, Christian, Sikh, Buddhist, Parsi, Jain) to support higher education access and reduce dropout rates at both school and college levels.

Key Highlight

Always check if self-declaration of community is acceptable or if an official certificate from a competent authority is required by your specific state department.

2. Central Government Schemes

The Ministry of Minority Affairs offers major national scholarships hosted on the National Scholarship Portal (NSP). The three primary pathways include:

- **Pre-Matric Scholarship**
For students in classes 1 to 10. Focuses on covering basic academic costs and primary education retention.
- **Post-Matric Scholarship**
Covers class 11, 12, ITI, diploma, bachelor's, and postgraduate coursework across India.
- **Merit-cum-Means Scholarship**
Specifically targets professional and technical courses (Engineering, Medical, Law) with higher reimbursement caps.
