IndiaScholarships.in — Scholarship Tools Comprehensive Product Audit

This document provides a brutally honest product, UX, conversion, virality, and SEO audit of the complete suite of scholarship tools and calculators available on **IndiaScholarships.in**.

1. Executive Summary

As a SaaS platform targeting student acquisition, engagement, and programmatic SEO, IndiaScholarships.in possesses a unique data advantage (a curated database of 214+ active scholarships). However, the tools suite suffers from major alignment issues, duplicate routing, missing metadata schemas, and lack of lead conversion tracking.

Suite Status Overview

- **Total Number of Tools:** 8 distinct tools (1 hub page, 5 active calculators, 1 duplicate-routed checker, and 2 functional "coming soon" prototypes).
- **Active Tools:**
 1. **Scholarship Eligibility Checker** (Production MVP)
 2. **CGPA to Percentage Converter** (Production Ready)
 3. **Family Income Calculator** (Production Ready)
 4. **Scholarship Amount Calculator** (Production Ready)
 5. **Study Cost & Gap Calculator** (Production Ready)
 6. **Education Loan EMI Calculator** (Production Ready)
- **Prototypes / Hidden Routes:**
 7. **Scholarship Finder Wizard** (Functional prototype; marked "Coming Soon" on hub)
 8. **Scholarship Compare Tool** (Functional prototype; marked "Coming Soon" on hub)
- **Duplicate Routes:**
 - `/eligibility-checker` and `/tools/scholarship-eligibility-checker` are identical, serving duplicate content without redirects, splitting index equity.

Strengths & Weaknesses

- **Biggest Strengths:**
 - **Data Grounding:** Unlike generic calculators, most tools are linked directly to the live SQLite scholarship database, returning real matching schemes.

- **Performance:** Pure client-side calculations mean fast load times and instant results.
 - **Modern Aesthetics:** Standardized Tailwind styles, dark headers, and modern clean layouts.
 - **Biggest Weaknesses:**
 - **Severe SEO Sitemap Leaks:** The main `/tools` hub and **all individual tools** (except the root `/eligibility-checker`) are **completely excluded** from `app/sitemap.ts`. Google cannot crawl them via XML feeds.
 - **Duplicate & Orphaned URLs:** Duplicate URL structures split page authority, and "Coming Soon" tools are hidden from users but active on 200 OK routes.
 - **No Conversion Funnel:** Every tool ends in a dead-end with no email signup capture, PDF download gate, or user account prompt.
 - **Recommendation Shortcomings:** Core recommendation engines ignore critical fields like **Gender** (e.g., girls-only scholarships matched to boys) and **Special Conditions** (physical disabilities, sports).
-

2. Tool Inventory & Audits

0. Tools Listing Hub

- **URL:** <https://www.indiascholarships.in/tools>
- **Description:** A central dashboard showcasing all available tools and calculators.
- **Status:** Production Ready (links are active, except for prototypes).
- **Target Audience:** Students, parents, and counselors exploring financial aid resources.

Scholarship Compare Tool

- **SEO Audit:**

- *Unique Title:* Yes ("Free Scholarship Tools & Calculators for Indian Students")
- *Meta Description:* Yes (Free suite of calculators, estimators, converters)
- *H1/H2:* Yes
- *FAQ / FAQ Schema:* Yes (Injected statically in `page.tsx`)
- *SoftwareApplication / Breadcrumb Schema:* No
- *Internal Links:* Yes (Links to active tools)
- *Canonical:* Yes (`https://www.indiascholarships.in/tools`)

- **Content Audit:** ~450 words. Page is visually engaging but lacks descriptive text explaining *how* each tool helps, making it border on thin content for general queries.
- **UX Audit (Score: 8/10):** Fast, clean, responsive. The category filter tabs work instantly. However, displaying "Coming Soon" badges on 2 of the 8 cards feels like a prototype state.
- **Conversion Audit:** Completely missing email newsletter forms or CTA buttons.
- **Critical Defect:** The "Coming Soon" cards point to `/tools/scholarship-finder-wizard` and `/tools/scholarship-compare-tool`, but the actual page folders are `/tools/finder-wizard` and `/tools/compare`. Enabling them will trigger immediate 404s.

1. Scholarship Eligibility Checker

- **URL:** <https://www.indiascholarships.in/eligibility-checker>
- **Alternative Duplicate URL:** <https://www.indiascholarships.in/tools/scholarship-eligibility-checker>
- **Description:** Check your eligibility for Indian scholarships based on academic, regional, and economic parameters.
- **Status:** Production MVP.
- **Related Pages:** Links to scholarship detail pages.

IS IndiaScholarships Find Scholarships Tools Guides About

Verify Your Scholarship Eligibility

Scholarship Eligibility Checker

Use the IndiaScholarships Scholarship Eligibility Checker to enter your details and instantly check your eligibility for matching government and private scholarships.

Tools / Eligibility Checker

Check Your Profile

Enter your academic and family details to find exact matches from our verified scholarship directory.

Where do you live (State)?

Select your state

What is your Caste Category?

Select your category

What level are you studying?

Select education level

See your eligible matching schemes

Fill out your academic profile on the left and click the button to scan our verified database.

- **User Journey:** Landing Page -> Multi-field Form -> client-side sorting -> Result Card List (Tabs: Gov / Private / Int) -> Click card to go to detail page.
- **Inputs:**
 - *State* (Mandatory): Dropdown (matches state domicile).
 - *Caste Category* (Mandatory): General, OBC, SC, ST, EBC, Minority.
 - *Education Level* (Mandatory): UG, PG, Class 9-12, etc.
 - *Annual Income* (Optional): Number field.
 - *Academic Marks* (Optional): Number field (percentage).
- **Outputs:** Matching scholarship cards, sorted by annual benefit.
- **Technical Architecture:** Client-side filtering logic matching local database rows. Queries fields `state`, `caste`, `income_limit`, `min_marks`, `level`.
- **SEO Audit:**

- *FAQ/FAQ Schema*: No FAQ schema.
 - *SoftwareApplication / Breadcrumb Schema*: None.
 - *Sitemap*: Only `/eligibility-checker` is indexed; `/tools/scholarship-eligibility-checker` is orphaned.
 - **UX Audit (Score: 6/10)**:
 - *Friction*: Forms require manual typing for marks and income.
 - *Severe Bug*: Gender is ignored. Girls-only scholarships are recommended to everyone, causing massive confusion.
 - **Conversion / Virality**: ShareButtons present. No lead capture.
 - **Linkability Potential (Score: 8/10)**: High. Schools and colleges frequently link to eligibility checkers.
 - **Competitive Analysis**: Buddy4Study requires registration *before* showing results. IndiaScholarships has a major competitive edge here with zero paywalls or forced logins, but Buddy4Study's matching is more accurate due to gender and sub-caste checks.
-

2. CGPA to Percentage Converter

- **URL**: <https://www.indiascholarships.in/tools/cgpa-percentage-converter>
- **Description**: Convert academic CGPA to percentage using CBSE, AICTE, and university conversion formulas.
- **Status**: Production Ready.

Grade Converter Tool

CGPA to Percentage Converter

Use the IndiaScholarships CGPA to Percentage Converter to convert your academic scores into standard percentages and instantly match scholarship eligibility requirements.

Tools / CGPA to Percentage Converter

% Input Your Scores

Choose your scale, type your current CGPA, and select the formula multiplier.

FORMULA MULTIPLIER

Find Matching Scholarships

Enter your CGPA and click "Convert CGPA to Percentage" to instantly scan and display qualifying government and private scholarships.

- **User Journey:** Landing -> Select scale & enter value -> Choose CBSE x9.5 or Standard x10 -> Real-time calculation -> Recommended scholarships list based on converted percentage.
- **Inputs:**
 - *Grading Scale* (Mandatory): 10.0 or 4.0 scale.
 - *CGPA Value* (Mandatory): Input number.
 - *Formula Multiplier* (Mandatory for 10.0): CBSE/AICTE (x9.5) or Standard (x10.0).
- **Outputs:** Percentage score, math formula, and list of scholarships requiring `min_marks <= percentage`.
- **Technical Architecture:** Client-side math. Queries database for active scholarships with `min_marks > 0` ordered by minimum marks.
- **SEO Audit:**
 - *FAQ Schema*: Yes (Injected statically in the component).
 - *SoftwareApplication / Breadcrumb*: No.
 - *Sitemap*: **Missing from XML sitemap.**
- **UX Audit (Score: 9/10):** Outstanding. Real-time conversion update as you type, and instantly reveals matched scholarships. Excellent education copy at the bottom.
- **Conversion / Virality:** ShareButtons present. No lead capture.
- **Linkability Potential (Score: 9/10):** Extremely high. Schools and college blogs link to grade converters.

- **Competitive Analysis:** Budy4Study lacks this matching grade tool. It is a unique differentiator for IndiaScholarships.in.

3. Family Income Calculator

- **URL:** <https://www.indiascholarships.in/tools/family-income-calculator>
- **Description:** Check your family income eligibility limit for Indian scholarships.
- **Status:** Production Ready.

The screenshot shows the IndiaScholarships website header with the logo and navigation links: Find Scholarships, Tools, Guides, and About. Below the header is a dark blue banner with a yellow button labeled 'Check Scholarship Eligibility'. The main heading is 'Family Income Calculator' in white, followed by a subtitle: 'Use the IndiaScholarships Family Income Calculator to check if your family income matches the limits for government and private scholarships.'

Below the banner, the page is titled 'Tools / Family Income Calculator'. The interface is divided into two main sections. The left section, titled 'Select Your Family Income', contains instructions: 'Move the slider to select your family's annual income, then click the button.' It features a slider for 'ANNUAL FAMILY INCOME' ranging from ₹50K to ₹10L+, with a current selection of ₹2,00,000. Below the slider are 'QUICK PRESETS' buttons for ₹1.5 Lakh, ₹2.5 Lakh, ₹4.5 Lakh, ₹6.0 Lakh, and ₹8.0 Lakh. The right section, titled 'Select income to see scholarships', contains instructions: 'Choose your family income on the left and click the button.'

- **User Journey:** Landing -> Move slider / Click preset -> Calculate -> Recommended scholarships requiring `income_limit >= income`.
- **Inputs:**
 - *Annual Family Income* (Mandatory): Slider ranging from 50k to 10L, or quick presets (1.5L, 2.5L, 4.5L, 6L, 8L).
- **Outputs:** Output matching list showing exact income limits.
- **Technical Architecture:** Client-side slider filtering matching `s.income_limit === 0 || income <= s.income_limit`.
- **SEO Audit:**
 - *FAQ Schema:* Yes.

- *SoftwareApplication / Breadcrumbs*: No.
- *Sitemap*: **Missing from XML sitemap.**
- **UX Audit (Score: 8/10)**: The slider and quick presets make this fun and extremely low-friction.
- **Conversion / Virality**: Copy results to clipboard button is highly functional. No newsletter subscription.
- **Linkability Potential (Score: 7/10)**: High. Domicile and income certificates are confusing topics, and this tool adds clarity.

4. Scholarship Amount Calculator

- **URL**: <https://www.indiascholarships.in/tools/scholarship-amount-calculator>
- **Description**: Estimate your prospective annual scholarship disbursement based on education level and stream.
- **Status**: Production Ready.

The screenshot shows the IndiaScholarships website header with the logo and navigation links: Find Scholarships, Tools, Guides, and About. Below the header is a dark blue banner with a 'Check Scholarship Money' button and the title 'Scholarship Amount Calculator'. The main content area is light blue and contains a form titled 'Enter Your Details' and a large empty box on the right.

Enter Your Details

Select your education level, caste category, and stream to see matching scholarship amounts.

WHAT IS YOUR EDUCATION LEVEL?

Undergraduate (UG) Postgraduate (PG)

Class 9 - 12 Class 1 - 10

WHAT IS YOUR CATEGORY / CASTE?

General OBC SC

ST Minority EWS

Enter details to see scholarship money

Select your options on the left and click the button to see how much money you can get.

- **User Journey**: Landing -> Select Level, Caste, Stream -> Calculate -> Displays Min, Max, Average benefits and matching schemes.
- **Inputs**:

- *Education Level* (Mandatory): UG, PG, Class 9-12, etc.
 - *Caste Category* (Mandatory): General, OBC, SC, ST, EBC, Minority.
 - *Course Stream* (Mandatory): Engineering, Medical, General Degree, etc.
 - **Outputs:** Dynamic statistics: Minimum benefit, Maximum benefit, Average benefit, and count of matching schemes.
 - **Technical Architecture:** Computes math stats (`Math.min` , `Math.max` , `Math.average`) dynamically over the filtered results array.
 - **SEO Audit:**
 - *FAQ Schema:* Yes.
 - *Sitemap:* **Missing from XML sitemap.**
 - **UX Audit (Score: 8/10):** Clear display of statistics. Good visual representation of averages.
 - **Conversion / Virality:** Clipboard sharing. No lead generation.
 - **Linkability Potential (Score: 8/10):** High. Career blogs and student forums love quoting "average scholarship amounts".
-

5. Study Cost & Gap Calculator

- **URL:** <https://www.indiascholarships.in/tools/study-cost-calculator>
- **Description:** Calculate total college costs and analyze your scholarship funding gap.
- **Status:** Production Ready.

[Check College Expenses & Gap](#)

Study Cost Calculator

Use the IndiaScholarships Study Cost Calculator to plan your college budget, calculate fees and hostel expenses, and estimate your remaining funding gap.

Tools / College Expense Planner

Enter Your College Costs

Enter your expected fees and hostel costs below to calculate your total expenses and check for scholarship matches.

ACADEMIC PROFILE (FOR SCHOLARSHIP MATCHES)

Education Level

Undergraduate (UG) ▾

Category / Caste

General ▾

ANNUAL COLLEGE FEE

₹80,000

Enter details to see college cost report

Input your college fees on the left and click the button to see your total cost and funding gap report.

- **User Journey:** Landing -> Input expenses & secured funding -> Select profile -> Calculate -> Displays total cost, funding gap, coverage percentage, and matching scholarships.
- **Inputs:**
 - *Tuition Fee* (Annual, Mandatory): Number input.
 - *Accommodation Fee* (Monthly, Mandatory): Number input.
 - *Food Cost* (Monthly, Mandatory): Number input.
 - *Books & Stationery* (Annual, Mandatory): Number input.
 - *Secured Funding / Scholarships* (Optional): Number input.
- **Outputs:** Total Annual Cost, Funding Gap, Coverage Percentage, and matching scholarships.
- **Technical Architecture:** Client-side arithmetic. Matches scholarships based on `level` and `category` profiles.
- **SEO Audit:**
 - *FAQ Schema:* Yes.
 - *Sitemap:* Missing from XML sitemap.
- **UX Audit (Score: 8/10):** Highly comprehensive. Addresses a major user pain point (not knowing the actual total cost of study).
- **Conversion:** Perfect landing spot for student loan referrals (Vidya Lakshmi link, bank sponsorships). This is a missed monetization opportunity.

6. Education Loan EMI Calculator

- **URL:** <https://www.indiascholarships.in/tools/education-loan-emi-calculator>
- **Description:** Calculate monthly EMI and check government interest subsidies for education loans.
- **Status:** Production Ready.

The screenshot shows the IndiaScholarships website header with the logo and navigation links: Find Scholarships, Tools, Guides, and About. Below the header is a dark blue banner with a red button labeled "Check Student Loan EMIs & Subsidies". The main heading is "Education Loan EMI Calculator". Below the heading is a paragraph: "Use the IndiaScholarships Education Loan EMI Calculator to calculate your monthly payments, see interest accumulated during college, and check if you qualify for government interest subsidy schemes (CSIS)."

Below the banner is a light blue section with the breadcrumb "Tools / Education Loan EMI Calculator". On the left is a form titled "Calculate Your Loan EMI". The form has a section "SUBSIDIES & LOAN MATCHING" with three dropdown menus: "Caste Category" (set to "General"), "Family Income" (set to "Above ₹4.5 Lakhs"), and "Where will you study?" (set to "In India"). Below this is a slider for "HOW MUCH LOAN MONEY DO YOU NEED?" with a value of "₹10,00,000". The slider range is from "₹1L" to "₹75L+". On the right is a box titled "Check your monthly payments" with a calculator icon. Below the title is a paragraph: "Adjust the loan amount and interest sliders on the left, then click the Calculate button to check your EMI and subsidy eligibility."

- **User Journey:** Landing -> Enter Loan details -> Input subsidy criteria -> Calculate -> Displays EMI, total interest, total payable, and CSIS subsidy eligibility.
- **Inputs:**
 - *Loan Principal* (Mandatory): Number.
 - *Interest Rate* (Mandatory): Number (%).
 - *Tenure* (Mandatory): Years.
 - *Caste Category & Income Range & Study Location* (Mandatory for CSIS subsidy verification).
- **Outputs:** Monthly EMI, Total Interest Payable, Total Amount, Moratorium Interest, and CSIS eligibility notice.
- **Technical Architecture:** Uses standard amortized loan formulas. Computes Central Sector Interest Subsidy (CSIS) eligibility.

- **Critical Defect:** The "Matching Scholarships" panel displays a hardcoded static slice of the first two scholarships from the array. It does not perform actual profile matching.
- **SEO Audit:**
 - *FAQ Schema:* Yes.
 - *Sitemap:* **Missing from XML sitemap.**
- **UX Audit (Score: 7/10):** The interest subsidy check is a fantastic feature specific to Indian students. The static scholarship recommendation is a major design shortcut.
- **Linkability Potential (Score: 8/10):** Very high. Education loan trackers are popular on student resource sites.

7. Scholarship Finder Wizard

- **URL:** <https://www.indiascholarships.in/tools/finder-wizard>
- **Description:** Guided questionnaire to match you to qualifying scholarships.
- **Status:** Functional Prototype (Hidden on Tools Hub via "Coming Soon" card).

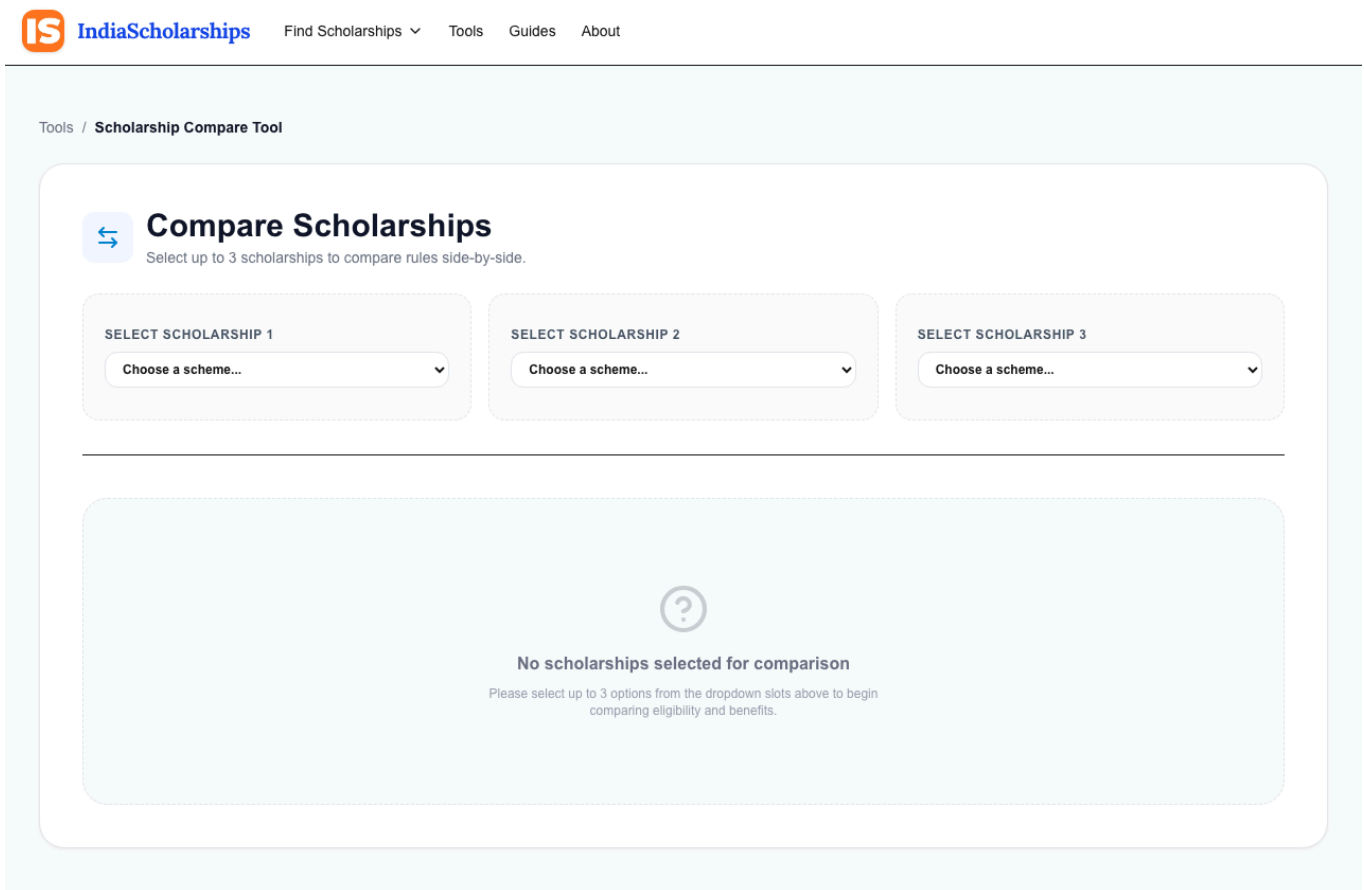

The screenshot shows the 'IndiaScholarships' website header with navigation links: 'Find Scholarships', 'Tools', 'Guides', and 'About'. The main content area is titled 'Tools / Scholarship Finder Wizard'. It features a 'Profile Builder' section labeled 'QUESTION 1 OF 5'. The first question is 'Which state are you a resident of?' with a location pin icon. Below the question is a dropdown menu with the placeholder text 'Select your home state'. At the bottom of the wizard, there are two buttons: a light blue '< Back' button and a purple 'Next Step >' button. The footer contains the 'IndiaScholarships' logo, a 'Browse' link with 'All Scholarships' below it, and a 'Resources' link with 'Eligibility Checker' below it.

- **User Journey:** Step 1 (State) -> Step 2 (Caste) -> Step 3 (Level) -> Step 4 (Income) -> Step 5 (Marks) -> Results Dashboard.

- **Technical Architecture:** Client-side state step-by-step form. Evaluates filters sequentially on step 5.
- **SEO Audit:**
 - *FAQ Schema:* None.
 - *Sitemap:* **Missing from XML sitemap.**
- **UX Audit (Score: 5/10):**
 - *Friction:* High. The form forces the user to proceed step-by-step. If they want to change state, they must reset the wizard. No back buttons on mobile layouts.
- **Product Status:** Ready to deploy if links are corrected and a Back button is added.

8. Scholarship Compare Tool

- **URL:** <https://www.indiascholarships.in/tools/compare>
- **Description:** Select and compare multiple scholarships side-by-side.
- **Status:** Functional Prototype (Hidden on Tools Hub via "Coming Soon" card).

The screenshot shows the 'Compare Scholarships' tool interface on the IndiaScholarships website. The header includes the 'IS IndiaScholarships' logo and navigation links: 'Find Scholarships', 'Tools', 'Guides', and 'About'. The main heading is 'Tools / Scholarship Compare Tool'. The tool itself is titled 'Compare Scholarships' with a subtitle 'Select up to 3 scholarships to compare rules side-by-side.' Below this, there are three dropdown menus labeled 'SELECT SCHOLARSHIP 1', 'SELECT SCHOLARSHIP 2', and 'SELECT SCHOLARSHIP 3', each with a 'Choose a scheme...' placeholder. A large light blue box at the bottom contains a question mark icon and the text 'No scholarships selected for comparison', followed by a message: 'Please select up to 3 options from the dropdown slots above to begin comparing eligibility and benefits.'

- **User Journey:** Landing -> Choose up to 3 scholarships via dropdowns -> Matrix table renders.

- **Outputs:** Comparison grid showing Annual Benefit, Level, Category, State, Income Limit, Marks, Application Mode, and Deadline side-by-side.
 - **UX Audit (Score: 7/10):** The selector dropdowns are long and disorganized. Renders beautifully on desktop, but the layout is completely broken on mobile because of wide horizontal tables.
 - **Product Status:** Ready to deploy after mobile table responsive scroll CSS is fixed.
-

3. Overall Platform Analysis

Do they feel connected?

No. The tools currently function as isolated island pages. There is no shared session state:

- If a student enters their CGPA on the CGPA Converter, that percentage is **not** pre-filled when they visit the Eligibility Checker.
- If they input their family income on the Income Calculator, the Loan EMI Calculator and Study Cost calculators remain blank.

The user is forced to re-enter the same profile information on every single tool page.

Recommendations for Product Suite Integration

1. Unified Student Profile Session:

- Implement a simple local-storage or React Context-based user profile (`state` , `caste` , `marks` , `income` , `level` , `gender`).
- Once entered on *any* tool, it should auto-fill fields across *all* tools.

2. Shared Results Dashboard:

- Instead of separate results panels, establish a "Student Financial Dashboard".
- Show total education cost, loan options, matched scholarships, and conversion chances in one unified view.

3. Account Creation (SaaS Play):

- Allow students to create accounts to save calculated results, track application deadlines, and receive automated alert notifications.

Contextual Integration on Scholarship Detail Pages

We should embed contextual, interactive entry points to our calculators on the core `/scholarships/[slug]` detail pages. This addresses the current UX isolation and drives high-intent users into our tools suite.

- **If min_marks > 0** : Under the eligibility criteria, inject: *"Unsure about your exact percentage? Convert your CGPA to percentage using our [CGPA Converter](#) to verify if you qualify."*
- **If income_limit > 0** : Under the income cap criteria, inject: *"Add up your household income sources using the [Family Income Calculator](#) to ensure you are below the cap."*
- **On Central & State government scheme pages**: Display a dynamic CTA card: *"Check if you qualify for other central or state government awards using our [Scholarship Eligibility Checker](#)."*
- **Benefits**:
 - **SEO Boost**: Creates thousands of contextual, crawler-friendly internal links from high-authority details pages to calculators, distributing index equity and crawling frequency.
 - **User Engagement**: Prompts passive readers to take action, significantly increasing session length and lowering bounce rates.
 - **Reduced Form Friction**: By passing URL query parameters (e.g. `?marks=75`) from the scholarship detail page, we can pre-populate inputs on the tool side.

4. Linkability & Performance Score

The following matrix ranks all 8 tools across key SaaS growth metrics (scores out of 10):

Tool / Page	SEO Potential	Backlink Potential	Virality	Retention	Lead Gen	Monetization	Overall Score
CGPA Converter	9	9	8	4	5	2	6.1 / 10
Eligibility Checker	9	8	7	5	6	3	6.0 / 10
Study Cost Planner	7	8	6	5	8	8	6.0 / 10
EMI Loan Calculator	8	8	5	4	7	9	5.8 / 10
Finder Wizard	7	6	8	5	7	3	5.5 / 10
Income Calculator	8	7	6	3	5	2	5.0 / 10
Amount Calculator	7	7	6	3	5	2	4.8 / 10

Tool / Page	SEO Potential	Backlink Potential	Virality	Retention	Lead Gen	Monetization	Overall Score
Compare Tool	6	6	7	4	5	2	4.8 / 10

5. Roadmap & Recommendations

Phase 1: Quick Wins (< 2 Hours each)

- Sitemap Crawl Fix:** Add the central `/tools` and all 7 individual tools routes to `app/sitemap.ts` to solve sitemap leakage.
- Duplicate URL Mitigation:** Set up a 308 permanent redirect from `/tools/scholarship-eligibility-checker` to the root `/eligibility-checker`.
- Enable Hidden Tools:** Correct the href paths in `ToolsClient.tsx` from `/tools/scholarship-finder-wizard` to `/tools/finder-wizard` and from `/tools/scholarship-compare-tool` to `/tools/compare`, then remove the `comingSoon` blocks to make them active.
- CSIS Interest Subsidy Link:** On the Loan EMI calculator, add a direct referral link to Vidya Lakshmi portal or public bank student schemes when a user is marked CSIS-eligible.
- Contextual Link Ingestion:** Update the scholarship detail template (`app/scholarships/[slug]/page.tsx`) to dynamically inject links to the CGPA Converter and Family Income Calculator if matching database constraints (`min_marks` or `income_limit`) are present.

Phase 2: Growth (1-2 Days)

- Recommendation Engine Upgrades:** Add `gender` column filtering to the database queries for the Eligibility Checker and Finder Wizard to prevent invalid gender recommendations.
- SoftwareApplication & Breadcrumb Schema:** Inject JSON-LD `SoftwareApplication` (defining application category as `EducationalApplication` and operating systems as `All`) and standard `BreadcrumbList` schemas across all tool landing pages.
- Lead Generation CTA:** Add a "Send Matched Scholarships to My Email" form below results to capture emails and fuel newsletter signups.

Phase 3: Long-term Moat (1 Week)

- Unified Student Profile (Local Storage):** Save student inputs locally so that values persist across converters and checkers.

2. **EMI Loan Affiliate Partnerships:** Integrate official bank referral CTAs on the Study Cost and EMI Loan calculators to monetize the high-intent traffic.
3. **Programmatic Long-tail Landing Pages:** Dynamically generate indexable paths like `/tools/cgpa-percentage-converter/9.0-cgpa-cbse` to capture highly specific queries.

Data Assets Audit

Tool	DB Tables	Fields Queried	Fields Computed	Fields Missing (But Could Improve Match)
Eligibility Checker	<code>scholarships</code>	<code>state, caste, income_limit, min_marks, level, amount_annual</code>	Dynamic profile matching	<code>gender, residency_requirement, special_conditions</code>
CGPA Converter	<code>scholarships</code>	<code>min_marks, amount_annual, title, provider</code>	Converted Percentage	<code>gender</code>
Income Calculator	<code>scholarships</code>	<code>income_limit, amount_annual</code>	Match counting	<code>domicile, gender</code>
Amount Calculator	<code>scholarships</code>	<code>level, caste, course_stream, amount_annual</code>	Min, Max, Avg stats	<code>gender, state</code>
